## Landscape Architecture Program

## Curriculum structure and contents

## Program structure

- Total number of courses (NC): 63
- No. of credit hours (CH): 170
- European Credit Transfer System (ECTS): 300
- Student Workload (SWL): 7500
- Total Contact Hours:

| 1 | Lectures | Lec. | 90 |
| :---: | :---: | :---: | :---: |
| 2 | Tutorials | Tut. | 168 |
| 3 | Laboratory | Lab | 21 |
|  | Total | TT | $\mathbf{2 7 9}$ |

## Requirements (\%)

| 1 | University Requirement | UR | $8 \%$ |
| :---: | :---: | :---: | :---: |
| 2 | Faculty Requirement | FR | $25 \%$ |
| 3 | Discipline Requirement | DR | $67 \%$ |

Practical/Field Training: the student must perform field training for 12 weeks in industrial or service facilities

|  |  | Subject area | NARS\% | Program\% |
| :---: | :---: | :--- | :---: | :---: |
| $\mathbf{1}$ | SS | Social Sciences and Humanities | $8-12$ | 10.7 |
| $\mathbf{2}$ | BM | Business Management | $2-4$ | 3.2 |
| $\mathbf{3}$ | BS | Mathematics and Basic Sciences | $18-22$ | 18.8 |
| $\mathbf{4}$ | EK | Engineering Knowledge | $4-6$ | 5.7 |
| $\mathbf{5}$ | BE | Basic Engineering Sciences | $25-30$ | 27.2 |
| $\mathbf{6}$ | EA | Engineering Applications and Design | $25-30$ | 28.7 |
| $\mathbf{7}$ | PT | Project and Training | $4-6$ | 5.7 |
|  |  | Total |  | 100 |

## Professional information

## Program Mission

The mission of Landscape Architecture program (LAAR) is to prepare distinguished engineering graduates of Architects and Landscape Architects capable of keeping pace with the global perspective of sustainable landscape practices and technological development. LAAR prepares a diverse student body to become leaders within the field of architecture and landscape architecture. Students are instilled with the theoretical, technical and life skills necessary to address the complex and continually changing ecological, social and technological challenges associated with the design, conservation and management of architecture and landscapes. Educational emphasis is placed on developing creative and critical thinking skills, high moral character and ethical behavior, exposure to various geographies and cultures, and an independence of mind and freedom of spirit. Therefore, LAAR aims the following intentions:

PM 1. To enhance the students' awareness of specific non-related issues to their specialization sciences, especially which are related to human sciences to enhance their social involvement.
PM 2. To stimulate design creativity and critical thinking.
PM 3. To augment the intellectual capacity to develop architectural, landscape, and urbanism solutions in an environment based on scientific research, technological innovation and sustainability.

PM 4. To prepare students to acquire the individual skills and ethics required for long-term learning and competent professional practice; and
PM 5. To equip students with the required basic knowledge of engineering sciences and interpersonal skills to understand, coordinate with, and lead other engineering disciplines in the architectural profession.

## Program aims

Landscape Architecture Engineering Program is an engineering program that is specialized in creating and conserving workable, democratic and meaningful indoor/outdoor places for people to live and work in. Landscape architecture profession pursues projects at all scales, in both town and country, from individual streets to national parks. It requires an aptitude for creativity, a capacity to merge and cross diverse knowledge to produce imaginative but workable solutions, since landscape architects often work and collaborate with engineers, surveyors, community planners, biologist, agriculturists and foresters.
The program graduates are distinguished by their potential to handle a diversity of work that is characterized by its multidisciplinary nature which makes the profession interesting and stimulating. The graduates can advise on, plan, design and oversee the creation, regeneration and development of external land areas such as gardens and recreational areas, as well as residential, industrial and commercial sites. However, they also have the mastery of architecture, the profession of designing buildings, communities, artificial constructions and environments, furnishings and decorations. In this sense, the program graduates can carry out other related missions such as supervision of construction work, and the examination, restoration, or remodeling of existing sites/buildings. All are done pursuing the concept of quality of life/sustainability.
Then the main aims and specific objectives of the Landscape Architecture Program at the Faculty of Engineering in Ain Shams University are:

- PA1. Supporting a strong undergraduate program focusing on the development of sound thinking skills, personal vision, and high moral character and ethical behavior through exposure to the broad range of landscape architecture and architecture activities, and technical skills as well.
- PA2. Graduating high calibres in an effort to increase the diversity of leaders within the field of landscape architecture and architecture.
- PA3. Fostering well-respected faculty within the University and broader academic setting, who have the support network and skills necessary to succeed in teaching, research, community service and creative works.
- PA4. Offering the needed facilities, technology, travel and internship opportunities, as a means to help ensure student success.
- PA5. Making positive contributions to the broader social and ecological context, and develop a respected visible reputation, through community service-based research and teaching activities.

## Program levels and courses

The following table shows the student status and the study levels depending on the number of credit hours that the student completed. Whenever the student has completed $20 \%$ of the graduation requirements, he will be transferred from one level to a higher level (0-4).

| Study Level | Student Status | Achieved Credit Hours |
| :--- | :---: | :---: |
| General (0) | Freshman | 0 CH to less than 34 CH |
| First (1) | Sophomore | 35 CH to less than 68 CH |
| Second (2) | Junior | 69 CH to less than 102 CH |
| Third (3) | Senior-1 | 103 CH to less than 136 CH |
| Fourth (4) | Senior-2 | 137 CH to less than 170 CH |

## University Requirements

To achieve this goal, Ain Shams University has designed a number of courses planned to build the student personality, develop his skills, and increase his awareness of different topics. These courses are called University Requirements. The Faculty of Engineering Ain Shams University has selected some of these courses to be offered within the Engineering Programs. These courses are:

List of University requirements courses.

| - | ASU Elective (1) | 2 | 3 | 75 | 2 | 1 | 0 | 3 |
| - | ASU Elective (2) | 2 | 2 | 50 | 2 | 0 | 0 | 2 |
|  | Total | 14 | 17 | 425 | 12 | 6 | 0 | 18 |
| Pool of ASU Elective (1) Courses |  |  |  |  |  |  |  |  |
| ASU321 | Innovation and Entrepreneurship | 2 | 3 | 75 | 2 | 1 | 0 | 3 |
| ASU322 | Language Course - can accept equivalent certificates | 2 | 3 | 75 | 2 | 1 | 0 | 3 |
| ASU323 | Introduction to Accounting | 2 | 3 | 75 | 2 | 1 | 0 | 3 |
| ASU324 | History of Engineering and Technology | 2 | 3 | 75 | 2 | 1 | 0 | 3 |
| Pool of ASU Elective (2) Courses |  |  |  |  |  |  |  |  |
| ASU331 | Human Resources Management | 2 | 2 | 50 | 2 | 0 | 0 | 2 |
| ASU332 | History of Architecture | 2 | 2 | 50 | 2 | 0 | 0 | 2 |
| ASU333 | Introduction to Marketing | 2 | 2 | 50 | 2 | 0 | 0 | 2 |
| ASU334 | Building Safety and Fire Protection | 2 | 2 | 50 | 2 | 0 | 0 | 2 |
| ASU335 | Literature and Arts | 2 | 2 | 50 | 2 | 0 | 0 | 2 |
| ASU336 | Business Administration | 2 | 2 | 50 | 2 | 0 | 0 | 2 |

A placement test in English Language will be conducted for some admitted students to the Faculty of Engineering. If the student passes this test, then he will be exempted from taking the Technical English Language Course. The Technical English Language course is a pre-requisite for all Faculty requirements courses. For ASU322 - Language course, any non-English language is accepted including Arabic. If a student has an equivalent certificate, he is exempted from taking this course. Examples of equivalent certificates: TOEFL, IELTS ... etc. History of Architecture Course is not eligible for students enrolled in Architectural Engineering Program, Landscape Architecture Program, Environmental Architecture and Urbanism Program, and Housing Architecture and Urban Development Program.

## Faculty Requirements

To achieve these Intended Learning Outcomes, a set of courses must be completed as a Faculty Requirement. These courses are divided into Basic Science Courses and Basic Engineering Courses.

List of Faculty requirements courses.

A placement test in Mathematics will be conducted for all admitted students except some High School Degrees which are determined by the Faculty Council. If the student passes this test, then he will be exempted from taking Basic Mathematics Course. The Basic Mathematics course is a pre-requisite for all Faculty requirements courses.

## Specialization requirements

In order to get a Bachelor of Science Degree in this program, and to satisfy the Program Competences, the following set of courses need to be completed.

List of Landscape Architecture Program Requirements courses

| Code | Course Title | Credits and SWL |  |  | Contact Hours |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
