

■ It offers a practical internship for students that enhances their professional experience, explores a career path, gains confidence and network with professionals in the field.

■ We also strive to improve the quality of life of our students through collaboration with social initiatives and support them in the form of financial benefits, donations in kind as well as personal visits.

■ The Program provides the graduates with the credit hours required for post-graduate studies at global universities abroad (e.g. MSC, MBA and other professional Certificates).
