- Outstanding Psychiatry Center.

7 Hospitals

6 Specialized Centers

8100 Beds

130,000 inpatients per year

685,000 of Outpatients per year

Your Gate to Excellence

Medical Education

The undergraduate medical school program for the Bachelor's Degree in Medicine and Surgery is a five - year program which comprises 2.5 pre-clerkship years and 2.5 clerkship years with a total of 206 credit hours. This is followed by a 2-year Internship Training phase. Our program adopts a number of core clinical cases and emphasizes on early clinical integration.

Our Undergraduate Program is applied to:

- Main Group Students.
- Extended Modular Program (EMP) Students.

Extended Modular Program (EMP):

Our innovative undergraduate medical program was first launched in the academic year of 2014/2015. Since then, it has been considered as the benchmark for integrated medical programs in Egypt.

- The small number of students allows the program to adopt and implement innovative teaching methods.
- Presence of dedicated spaces for clinical training and clinical examinations.
- Provision of designated study areas for students, whether individual or in small groups.
- Emphasis on imparting self-learning and continuous learning skills to graduates.
- The program offers scholarships for academic excellence.
- A dedicated "Students wellbeing" program.
